Kite Tours

We have two kite installations available – the “Visions of Lewis and Clark” an art kite tribute to the Corps of Discovery and the native peoples that helped them on their epic journey. Also, the “Flying Buffalo Project” a bison themed tribute to the great mammals and what they meant to the tribes that subsisted on them. The buffalo kites are all designed by renowned Native American artists.

When we come to your town or business we can include kite building workshops and flying events.

We are booking for the 2018 and 2019 seasons – please call to schedule your visit.

Below is a list of some highlights of the many places the kites have visited:

1999 – 2000: Millennial Exhibit, Logan International Airport, Billings, MT
